EASY LIFT 140

Features and Benefits

-  140kg (309lbs) lift capacity
-  1.9m (6ft 2in) max lift height with hook attachment
-  1.55m (5ft 1in) max lift height with fork attachment
-  Durable and lightweight aluminium construction
-  Long lift cycles and battery recharges in 3 hours
-  Easy one-person operation
-  Reduces back and other lifting injuries
-  Folds flat for easy transport and storage
-  12 Month Warranty

Easy one-person operation

The MAKINEX Easy Lift 140 has many applications and can be used in workshops, warehouses, depots, distribution companies and hire and rental yards.

The MAKINEX Easy Lift 140 features powered lift via a 24V linear actuator. It is easy to operate – the lifting arm reach is controlled by the user lifting or lowering the handles and arm height is controlled via a simple thumb switch.

The unique design enables one person operation to lift and load directly into vehicles (trucks, vans and cars) or to place equipment and small loads on bench tops. It eliminates awkward and dangerous one or two person lifts and reduces the incidence of back and other injuries caused by heavy lifting. The MAKINEX Easy Lift 140 is lightweight and easy to manoeuvre. After use it can be folded down flat for easy transport and storage.
